# Useful OS X Applications & Utilities

AppZapper is for people who want to confidently try new apps while knowing they can uninstall them easily. Drag one or more unwanted apps onto AppZapper and watch as it finds all the extra files and lets you delete them with a single click. A slick safety system remembers which apps you want to keep safe, and the log tracks all the files you've zapped. In one Zap you'll understand it. In two you'll fall in love. Within the five free Zaps, you'll know you need to add AppZapper to your arsenal. Go ahead — try five free zaps and see AppZapper, the Mac uninstaller for the rest of us, in action.

On the disc within the Applications Folder: HandBrake-0.9.3-MacOSX.5_GUI_x86.dmg

_____

Hulu Desktop is a lean-back viewing experience for your personal computer. It features a sleek new look that's optimized for use with standard Windows Media Center remote controls or Apple remote controls, allowing you to navigate Hulu's entire library with just six buttons. For users without remotes, the application is keyboard and mouse-enabled. Hulu Desktop is a downloadable application and will work on PCs and Macs. It will initially launch as a beta product during which we plan to gather and incorporate user feedback to improve the service.

On the disc within the Applications Folder: HuluDesktop.dmg

ImageWell is a small, but powerful, image editing application that lets you quickly resize, crop, watermark, edit your images, take screenshots and then instantly upload them to the web, save to your computer or email them to a friend. ImageWell also lets you annotate your images with text, shapes, arrows and lines, quickly and easily. And it doesn't stop there – add a drop shadow, a shaped border, flip or rotate your image, adjust the sharpness and brightness, plus so much more.
